

ESL Teachers needed in South China

Posted By: Huizhou Greatway Language Training School and inlingua Cheltenham

Greatway is a well-established Education Group in Huizhou. We currently have 4 Language schools and 1 International College in Huizhou. For Language schools we provide up-to-date teaching resources and maintain a supportive and upbeat environment in which to teach. Our teacher training programs, along with our regular meetings and workshops, are designed to foster constant professional development and build the necessary tools for success.

Because our management team consists of both Chinese and Westerners, we are quite devoted to easing the concerns and improving the comfort of those teachers who are not yet familiar with the local environment.

Greatway is located in Huizhou city, just 2 hours from Hong Kong and 1.5 hours from Guangzhou and Shenzhen. Huizhou has every modern convenience found in metropolitan Cities like Shanghai and Guangzhou, yet is still idiosyncratic enough to feel uniquely Asian. This makes the adjustment relatively easy while still allowing you to experience the beauty of Chinese culture.

Huizhou is an ancient city that has had its current name since the Ming dynasty. Historic and cultural relics, such as the famous 8th century pagoda at West Lake, can still be seen and enjoyed in Huizhou. It was recognized as a city in 1958, later becoming one of the biggest technology hubs of East Asia. Many companies of international notoriety make Huizhou their production base, such as Sony, LG, Samsung, TCL, Desay, etc, where their emphasis is on electronic products and digital technology.

Huizhou is one of the fastest growing, major cities in Guangdong, China, located east of the Pearl River Delta and covers an area of 10,793sq km (including surrounding towns and districts). It has a population of 4 million people. Communication and transportation are very convenient. There is a railway and two national highways that connect nearby cities such as Hong Kong, Shenzhen and Guangzhou.
